

## Eco-friendly FCB Dispenser

# Viper Energy Saving Features

**20% to 30% less energy use than traditional FCB equipment**

- Efficient design and new compressor technology

**+ 5% additional savings with adaptive *Intelligent Defrost™***

- Managed defrost cycles potentially eliminate up to 2 defrost cycles per day

**+ 20% additional savings with our Programmable Sleep Mode feature**

- Based on 6 off hours per day

**= 45% to 55% TOTAL SAVINGS**

# Viper Eco-Friendly Features

- **LED lighting** reduces waste and carbon footprint
  - 7X life expectancy vs. fluorescent
- **Insulating Foam** has zero GWP (Global Warming Potential) and zero ODP (Ozone Depleting Potential)
- **Refrigerant** is environmentally friendly R404
- **Electronics** are compliant with RoHS directive (Reduction of Hazardous Substances)
