

at SCA Tissue

green is more than just a color – it's the cornerstone of everything we do.

From the sustainable products we offer to the holistic processes that create them, we continually work to find ways to lighten our footprint:

- Offering dispensing systems that reduce consumption and waste
- Manufacturing paper products made from 100% recycled content
- Acquiring third-party certification for our products and manufacturing processes
- Using chlorine-free treatment processes
- Recycling more than 750,000 tons of paper annually of which 400,000 tons is post-consumer
- Shipping products shorter distances from regionalized mills

Environmental Guideline/Certification Comparison

Third-party Certified

The EcoLogo^{CM} Program is North America's largest eco-labeling program offering the most comprehensive and stringent criteria for green certification. Green SealTM is an independent non-profit organization dedicated to safeguarding the environment and transforming the marketplace by promoting the manufacture, purchase, and use of environmentally responsible products and services.
